Graphic Design: A New History By Stephen J. Eskilson

Now in its second edition, this innovative look at the history of graphic design explores its evolution from the 19th century to the present day. Author Stephen J. Eskilson demonstrates how a new era began for design arts under the influence of Victorian reformers, tracing the emergence of modernist design styles in the early 20th century, and examining the wartime politicization of regional styles. Richly contextualized chapters chronicle the history of the Bauhaus and the rise of the International Style in the 1950s and '60s, and the postmodern movement of the 1970s and '80s. The book's final chapter looks at current trends in graphic design, with in-depth discussions of grunge, comic book, and graffiti aesthetics; historicism and appropriation; and the influence of technology, web design, and motion graphics.

The second edition features over 80 new images, revised text throughout, a new chapter on 19th-century design, and expanded sections on critical topics including the Swiss Style, Postmodernism, and contemporary design.

"Eskilson . . . scrupulously tells the history of graphic design, beginning with the printing of the Gutenberg Bible to today's digital design-it-yourself pages on social-networking Web sites. What makes this history 'new' is the author's focus on the role that technology has played, for better or worse, in the evolution of design style."—Lisa Rossi, *Wall Street Journal*
(Lisa Rossi *Wall Street Journal*)

"[Eskilson] has done excellent work synthesizing a vast range of secondary literature on the history of graphic design; he has done an even stronger job amassing a body of rich, engrossing, and often surprising visual material presented via top-quality reproductions. . . . Through that mix of established landmarks and fresh finds from the archive, Eskilson goes far in enlarging the history of graphic design. . . .
