**Las 33 estrategias de la guerra (Alta definición) (Spanish Edition)** By Robert Greene

In the competitive and violent world of today, it is impossible to avoid conflict, especially if we want to reach important goals, fulfill our wishes, and gain the respect of others. According to Robert Greene, the everyday life has become a permanent struggle that is waged on all fronts. War is not a separate kingdom that is divorced from the rest of society. It is a field that is eminently human, a grocery store of the best and the worst of our nature. It is indispensable to learn to face the daily battles with the best strategies possible. There is nobody better to teach us than the great warriors of the past, whose lessons and examples allow us to vanquish our enemies and to conquer our social and professional objectives. Abundantly illustrated with examples from history, such as Hannibal, Alexander the Great, Julius Caesar, Napoleon Bonaparte, and Frederick the Great, each of the thirty-three chapters outlines a strategy that will help you win life's wars. An indispensable book, *The 33 Strategies of War* provides all the psychological ammunition you need to overcome patterns of failure and forever gain the upper hand.
