**Rikugun: Guide to Japanese Ground Forces 1937-1945: Volume 1: Tactical Organization of Imperial Japanese Army & Navy Ground Forces** By Leland Ness

Rikugun: Guide to Japanese Ground Forces 1937-1945 is the first nuts-and-bolts handbook to utilize both the voluminous raw allied intelligence documents and postwar Japanese documentation as primary sources. This first volume covers the tactical organization of Army and Navy ground forces during the 1937-45 war. Using the wartime Imperial Japanese Army (IJA) mobilization plans, and the Unit Organization Tables, Unit Strength Tables and Unit History Tables compiled by the War Ministry and the 1st Demobilization Bureau during and after the war, a complete picture of IJA ground forces through the war is presented. The evolution of the Japanese force structure is examined, including infantry, armor, cavalry, artillery and naval ground combat units from battalion to division level, each thoroughly discussed and illustrated with tables of organization and equipment and mobilization data. This forms the framework for any discussion of the Imperial Japanese Army's capabilities and intentions.

### **Editorial Review**

#### Review

'The work that has clearly gone into assembling this comprehensive and detailed set of information of the Japanese ground forces in WW2 is amazing, and the author has clearly done a first class job of sorting through the huge volumes of data that has been found' (*Military Modeling*)

#### About the Author

Leland Ness has been conducting and supervising defense analysis and writing military history for over 40 years. He served as director of special projects at DMS/Jane's, published a newsletter on ground ordnance for the defense industry, and has been an e

### **Users Review**
