A Clinical Materia Medica: 120 Herbs in Western Use By Jeremy Ross

This book covers 120 herbs in Western use. It is designed for quick access to a wealth of clinically important data, including traditional Western use, traditional Chinese use (where available), comparison with similar herbs, constituents and pharmacology, dosage and dispensing, and contraindications. At the heart of each herb chapter is a clear and useful table that brings together Chinese actions, Western actions, Western uses, and examples of herb pairs for specific disorders. Herb pairs are the basic unit of herb combination. About 700 herb pairs are listed in this book with examples of the disorders treated. In the Appendix, there is a list of herb pairs for main Western disorders. The book is enhanced by 120 attractive line illustrations that show clearly the plant parts to aid identification and give a clear visualization of the herb. All main Chinese syndromes are given with details of symptoms, pulse, and tongue, and lists of suitable herbs. This includes individual Chinese syndromes as well as common Chinese syndrome combinations.
