Programmable Logic Controllers (2nd Edition) By James A. Rehg, Glenn J. Sartori

This outstanding book for programmable logic controllers focuses on the theory and operation of PLC systems with an emphasis on program analysis and development. The book is written in easy-to-read and understandable language with many crisp illustrations and many practical examples. It describes the PLC instructions for the Allen-Bradley PLC 5, SLC 500, and Logix processors with an emphasis on the SLC 500 system using numerous figures, tables, and example problems. New to this edition are two column and four-color interior design that improves readability and figure placement and all the chapter questions and problems are listed in one convenient location in Appendix D with page locations for all chapter references in the questions and problems. This book describes the technology so that readers can learn PLCs with no previous experience in PLCs or discrete and analog system control.

Programmable Logic Controllers (2nd Edition) By James A. Rehg, Glenn J. Sartori Bibliography

- Sales Rank: #475422 in Books
- Brand: Rehg, James A./ Sartori, Glenn J.
- Published on: 2008-08-27
- Ingredients: Example Ingredients
- Original language: Spanish
- Number of items: 1
- Dimensions: 11.00" h x 1.10" w x 8.40" l, 3.30 pounds
- Binding: Hardcover
- 624 pages

Editorial Review

About the Author

"James A. Rehg, CMfgE," is an Associate Professor of Engineering at Penn State Altoona, where he teaches automation controls courses in the BS program in Electromechanical Engineering Technology. He earned both a Bachelor of Science degree and a Master of Science degree in Electrical Engineering from St. Louis University and has completed additional graduate study at Wentworth Institute, University of Missouri, South Dakota School of Mines and Technology, and Clemson University. Before coming to Penn State Altoona, he was the CIM coordinator and department head of CAD/CAM/Machine Tool Technology at Tri-County Technical College. Prior to that, he was the Dean of Engineering Technology and Director of Academic Computing at Trident Technical College in Charleston, South Carolina. He held the position of Director of the Robotics Resource Center at Piedmont Technical College in Greenwood, South Carolina, and was department head of Electronic Engineering Technology of Forest Park Community College in St. Louis, Missouri. In addition, he was a Senior Instrumentation Engineer for Boeing in St. Louis. Professor Rehg has authored five texts on robotics and automation and has presented numerous papers on subjects related directly to training in automation and robotics. He has also been a consultant to nationally recognized corporations and many educational institutions. He has led numerous seminars and workshops in the areas of robotics and microprocessors and has developed extensive seminar training material. In addition, he has received numerous state awards for excellence in teaching and was named the outstanding instructor in the nation by the Association of Community College Trustees.

"Henry W. Kraebber, PE, CPIM," is a Professor of Mechanical Engineering Technology at Purdue University in West Lafayette, Indiana. He has fifteen years of experience and leadership in manufacturing operations, engineering, quality, and management. He has worked at the Collins Avionics and Missiles group of Rockwell International, the Plough Products Division of Schering-Plough Corporation, and Flavorite Laboratories, Inc. His work has supported the production of industrial, consumer, and military products in the food, consumer products, and electronics areas. He currently teaches courses in manufacturing operations, manufacturing quality control, and integrated systems in the Computer-Integrated Manufacturing Technology degree program. Mr. Kraebber earned a Bachelor of Science degree in Industrial Engineering from Purdue University and a Master of Engineering degree in Industrial Engineering from Iowa State University. He is President of the CIM in Higher Education (CIM/HE) Alliance, a nonprofit corporation that supports CIM and manufacturing education. He is a senior member of the Society of Manufacturing Engineers (SME) and the Institute of Industrial Engineers (IIE). He is an active member of the American Production and Inventory Control Society (APICS) and has served as President and Vice President of Education for the Wabash Valley Chapter.

Users Review

From reader reviews:

Donna Miller:

Do you considered one of people who can't read pleasant if the sentence chained from the straightway, hold on guys this kind of aren't like that. This Programmable Logic Controllers (2nd Edition) book is readable by means of you who hate the perfect word style. You will find the details here are arrange for enjoyable studying experience without leaving perhaps decrease the knowledge that want to offer to you. The writer

connected with Programmable Logic Controllers (2nd Edition) content conveys the thought easily to understand by many individuals. The printed and e-book are not different in the content but it just different in the form of it. So , do you even now thinking Programmable Logic Controllers (2nd Edition) is not loveable to be your top list reading book?

Anna Elam:

Reading a book to get new life style in this yr; every people loves to read a book. When you read a book you can get a lots of benefit. When you read guides, you can improve your knowledge, since book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you want to get information about your review, you can read education books, but if you want to entertain yourself look for a fiction books, such us novel, comics, and also soon. The Programmable Logic Controllers (2nd Edition) offer you a new experience in studying a book.

Edward Stevenson:

In this period globalization it is important to someone to obtain information. The information will make a professional understand the condition of the world. The healthiness of the world makes the information better to share. You can find a lot of references to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher which print many kinds of book. The particular book that recommended to you is Programmable Logic Controllers (2nd Edition) this publication consist a lot of the information from the condition of this world now. This particular book was represented how does the world has grown up. The terminology styles that writer use for explain it is easy to understand. The writer made some investigation when he makes this book. That's why this book suitable all of you.

Shawn Stoltzfus:

As we know that book is important thing to add our know-how for everything. By a reserve we can know everything you want. A book is a list of written, printed, illustrated or maybe blank sheet. Every year seemed to be exactly added. This guide Programmable Logic Controllers (2nd Edition) was filled in relation to science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has different feel when they reading a book. If you know how big benefit of a book, you can really feel enjoy to read a guide. In the modern era like now, many ways to get book that you just wanted.
