CMS Design Using PHP and jQuery
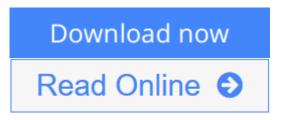

By Kae Verens

CMS Design Using PHP and jQuery By Kae Verens

This is a practical, tutorial-style book that develops a project from start to finish, explaining all aspects of the project. Every chapter starts by explaining what is to be accomplished and the various ways in which the problem may be tackled, followed by an in-depth explanation of the chosen solution. If you want to see jQuery in action with PHP and MySQL code, in the context of a real application, this is the book for you. It is written for developers who have written multiple scripts or websites, and want to know how to combine them all into one package that can be used to simplify future scripts and sites. The book is aimed at people who understand the basics of PHP and jQuery, and want to know how they can be used effectively to create a large project that is user-friendly and flexible.

Editorial Review

Review
"Overall this book is a great resource for amateur web programmers or for anyone that wants to crack down and learn how to make a CMS. Kae Verens and the publishers at Packt Publishing did an excellent job at putting CMS Design Using PHP and jQuery together."- Cody Sparks -- www.webhostdesignpost.com/website/cmsdesignusingphpandjqueryreview.html

"I recommend the book to those who want to make your own CMS. You will find many clever and cunning ways of coding and learn new things." - Shinichi Okada --www.okadadesign.no/blog/books/book-review-cms-design-using-php-and-jquery/

About the Author
Kae Verens is an owner manager of the web-development company Webworks.ie and is currently secretary of the Irish PHP Users Group. He has been writing in JavaScript since the mid 90s, and in PHP since the late 90s. Kae is the creator of the file management system KFM, the CMS WebME (used by Webworks.ie for over 200 separate clients), and the author of the Packt book jQuery 1.3 with PHP.

Users Review
