Editorial Review

From School Library Journal

YA-- AIVAS, the Artificial Intelligence Voice Address System that was a part of the original colonists' settlement, is unearthed on the Southern continent after having been buried for generations. This latest volume in the Pern saga deals with the reactions of the various lords, dragonriders, and craftsmen as they realize the impact the artificial intelligence will have on their culture and traditions. With its help, F'lar, Robinton, Lessa, Menolly, and all of the other characters YAs have come to care about devise a risky plan to eliminate a serious threat to their environment. While *All the Weyrs of Pern* is not as tight and exciting as the earlier dragonrider books, it is a well-written novel that's sure to appeal to McCaffrey's many fans.

From Library Journal

The dream of generations of Dragonriders draws within reach as, with the aid of an intelligent computer, the possibility of destroying the devastating phenomenon known as "Thread" becomes a reality. Having exposed Pern's civilization to technology in *Renegades of Pern* (LJ 10/15/89), McCaffrey proceeds with her customary skill and humor to explore all the ramifications of culture shock. Despite some weaknesses in plot and an odd notion of time travel, the latest novel in a popular series will not lack for readers. Especially for libraries owning the previous Pern titles.

From the Publisher

There are dragons all over Anne McCaffrey's house. Some she's bought, but many have been made for her by adoring fans and given to her as gifts. I don't make dragons, of course. But whenever circumstances allow, I do try to bring her American bacon, something she can't get easily in Ireland, and something which she has taught all her friends there to love, as well! I remember the first time I went to visit her, when she was still living in her old, much smaller but very homey, house. My husband and I arrived at the doorstep, and she immediately began bustling about, frying up some of the bacon we'd brought and sharing a lovely late breakfast with us before sending us off to the hotel for a nap. She made us dinner that night, too--the one and only time in my life that I've actually liked shrimp cocktail. Maybe that's because if you squint your eyes and look sideways, shrimp are kind of dragonlike, and I was eating them in the right company!
