Finite Mathematics for Business, Economics, Life Sciences and Social Sciences (12th Edition) (Barnett) By Raymond A. Barnett, Michael R. Ziegler, Karl E. Byleen

This accessible text is designed to help readers help themselves to excel. The content is organized into two parts: (1) A Library of Elementary Functions (Chapters 1—2) and (2) Finite Mathematics (Chapters 3—11). The book's overall approach, refined by the authors' experience with large sections of college freshmen, addresses the challenges of teaching and learning when readers' prerequisite knowledge varies greatly. Reader-friendly features such as Matched Problems, Explore & Discuss questions, and Conceptual Insights, together with the motivating and ample applications, make this text a popular choice for today's students and instructors.

Editorial Review

From the Back Cover

This accessible text is organized into two parts: (1) A Library of Elementary Functions (Chapters 1-2) and (2) Finite Mathematics (Chapters 3-11). The book's overall approach addresses the challenges of teaching and learning when readers' prerequisite knowledge varies greatly. Reader-friendly features such as Matched Problems, Explore & Discuss questions, and Conceptual Insights, together with the motivating and ample applications, make this text a popular choice for today's readers.

A Library of Elementary Functions: Linear Equations and Graphs; Functions and Graphs.**Finite Mathematics:**Mathematics of Finance;Systems of Linear Equations; Matrices;Linear Inequalities and Linear Programming; Linear Programming: Simplex Method; Logic, Sets, and Counting; Probability; Markov Chains; Games and Decisions; Description and Probability Distributions.

For all readers interested in finite mathematics for business, economics, life sciences, and social sciences.

About the Author

Raymond A. Barnett, a native of California, received his B.A. in mathematical statistics from the University of California at Berkeley and his M.A. in mathematics from the University of Southern California. He has been a member of the Merritt College Mathematics Department, and was chairman of the department for four years. Raymond Barnett has authored or co-authored eighteen textbooks in mathematics, most of which are still in use. In addition to international English editions, a number of books have been translated into Spanish. Co-authors include Michael Ziegler, Marquette University; Thomas Kearns, Northern University; Charles Burke, City College of San Francisco; John Fuji, Merritt College; and Karl Byleen, Marquette University.

Michael R. Ziegler (late) received his B.S. from Shippensburg State College and his M.S. and Ph.D. from the University of Delaware. After completing post doctoral work at the University of Kentucky, he was appointed to the faculty of Marquette University where he held the rank of Professor in the Department of Mathematics, Statistics, and Computer Science. Dr. Ziegler published over a dozen research articles in complex analysis and co-authored eleven undergraduate mathematics textbooks with Raymond A. Barnett, and more recently, Karl E. Byleen.

Karl E. Byleen received his B.S., M.A. and Ph.D. degrees in mathematics from the University of Nebraska. He is currently an Associate Professor in the Department of Mathematics, Statistics and Computer Science of Marquette University. He has published a dozen research articles on the algebraic theory of semigroups.

Users Review

From reader reviews:

David Wolverton:

Nowadays reading books are more than want or need but also become a life style. This reading behavior give you lot of advantages. The advantages you got of course the knowledge your information inside the book

that improve your knowledge and information. The info you get based on what kind of reserve you read, if you want drive more knowledge just go with education and learning books but if you want feel happy read one using theme for entertaining like comic or novel. Often the Finite Mathematics for Business, Economics, Life Sciences and Social Sciences (12th Edition) (Barnett) is kind of book which is giving the reader unforeseen experience.

Billy Stinson:

Reading a book being new life style in this yr; every people loves to read a book. When you go through a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what types of book that you have read. In order to get information about your study, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, these us novel, comics, as well as soon. The Finite Mathematics for Business, Economics, Life Sciences and Social Sciences (12th Edition) (Barnett) will give you a new experience in examining a book.

Fred Ashman:

Beside this Finite Mathematics for Business, Economics, Life Sciences and Social Sciences (12th Edition) (Barnett) in your phone, it could give you a way to get closer to the new knowledge or data.
