#### **Marylou Arroyo:**

Reading a book to become new life style in this season; every people loves to read a book. When you read a book you can get a lots of benefit. When you read publications, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your review, you can read education books, but if you want to entertain yourself look for a fiction books, this kind of us novel, comics, and soon. The Geology, Grades 6 - 12: Rocks, Minerals, and the Earth (Expanding Science Skills Series) provide you with new experience in looking at a book.

#### **John Keaney:**

As a university student exactly feel bored for you to reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just tiny students that has reading's heart

and soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Geology, Grades 6 - 12: Rocks, Minerals, and the Earth (Expanding Science Skills Series) can make you truly feel more interested to read.
