Revising and Editing for Translators (Translation Practices Explained) By
Brian Mossop

Revising and Editing for Translators provides guidance and learning materials for translation

students learning to edit texts written by others, and professional translators wishing to improve

their self-revision ability or learning to revise the work of others. Editing is understood as

making corrections and improvements to texts, with particular attention to tailoring them to

the given readership. Revising is this same task applied to draft translations. The linguistic work

of editors and revisers is related to the professional situations in which they work.

Mossop offers in-depth coverage of a wide range of topics, including copyediting, style editing,

structural editing, checking for consistency, revising procedures and principles, and translation

quality assessment. This third edition provides extended coverage of computer aids for

revisers, and of the different degrees of revision suited to different texts. The inclusion of

suggested activities and exercises, numerous real-world examples, a proposed grading scheme

for editing assignments, and a reference glossary make this an indispensable coursebook for

professional translation programmes.

Editorial Review

Review

"'Revising and Editing for Translators' is a practically-oriented, well organised textbook which is of relevance to all members of the multidimensional readership which it intends to target. It plugs an important gap in literature on revising/editing practice and would be a useful addition to the library of current and future editors/revisers and trainers in the field." - *Claire Louise Ellender, Université Charles-de-Gaulle, The LINGUIST List*
