Einstein For Dummies By Carlos I. Calle

Genius demystified, the Dummies way!

In 1905, Albert Einstein revolutionized modern physics with his theory of relativity. He went on to become a twentieth-century icon—a man whose name and face are synonymous with "genius." Now, at last, ordinary readers can explore Einstein's life and work in this new For Dummies guide. Physicist Carlos Calle chronicles Einstein's career and explains his work—including the theories of special and general relativity—in language that anyone can understand. He shows how Einstein's discoveries affected everything from the development of the atom bomb to the theory of quantum mechanics. He sheds light on Einstein's personal life and beliefs, including his views on religion and politics. And he shows how Einstein's work continues to affect our world today, from nuclear power to space travel to artificial intelligence.

Editorial Review

Users Review

From reader reviews:

James Davis:

People live in this new day of lifestyle always try and and must have the free time or they will get great deal of stress from both day to day life and work. So , once we ask do people have free time, we will say absolutely of course. People is human not really a huge robot. Then we question again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer will unlimited right. Then do you ever try this one, reading publications. It can be your alternative with spending your spare time, the book you have read is Einstein For Dummies.

Virginia Cherry:

Your reading 6th sense will not betray you, why because this Einstein For Dummies reserve written by well-known writer we are excited for well how to make book that can be understand by anyone who read the book. Written inside good manner for you, dripping every ideas and writing skill only for eliminate your own hunger then you still skepticism Einstein For Dummies as good book not simply by the cover but also with the content. This is one e-book that can break don't evaluate book by its deal with, so do you still needing yet another sixth sense to pick this specific!?! Oh come on your examining sixth sense already said so why you have to listening to yet another sixth sense.

Pamela Garcia:

Reading a book for being new life style in this season; every people loves to go through a book. When you go through a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, and also soon. The Einstein For Dummies provide you with a new experience in examining a book.

Johnnie Lewis:

As a student exactly feel bored for you to reading. If their teacher asked them to go to the library as well as to make summary for some publication, they are complained. Just little students that has reading's heart or real their interest. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach

Chinese's country. Therefore this Einstein For Dummies can make you truly feel more interested to read.
