Editorial Review

About the Author

Steve Zumdahl is the author of market-leading textbooks in introductory chemistry, general chemistry, honors-level chemistry, and high school chemistry. Recently retired from his long-time position as Director of Undergraduate Programs at the University of Illinois, he has received numerous awards for his contributions to chemical education. These include the National Catalyst Award in recognition of his contribution to chemical education, the University of Illinois Teaching Award, the UIUC Liberal Arts and Sciences Advising Award, and the School of Chemical Sciences Teaching Award (five times). He earned his B.S. in Chemistry from Wheaton College (IL), and his Ph.D. from the University of Illinois.

Donald J. DeCoste is Associate Director of General Chemistry at the University of Illinois, Urbana-Champaign and has been teaching chemistry at the high school and college levels for 26 years. He earned his BS in Chemistry and PhD from the University of Illinois, Urbana-Champaign. At UIUC he has developed chemistry courses for nonscience majors, preservice secondary teachers, and preservice elementary teachers. He teaches courses in introductory chemistry and the teaching of chemistry and has received the School of Chemical Sciences Teaching Award four times. Don has led workshops for secondary teachers and graduate student teaching assistants, discussing the methods and benefits of getting students more actively involved in class. When not involved in teaching and advising, Don enjoys spending time with his wife and three children.

Users Review

From reader reviews:

Geraldine Schrader:

What do you consider book? It is just for students since they're still students or it for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has different personality and hobby per other. Don't to be compelled someone or something that they don't desire do that. You must know how great as well as important the book Introductory Chemistry, 7th Edition. All type of book would you see on many sources. You can look for the internet resources or other social media.

Lily Tarver:

This Introductory Chemistry, 7th Edition book is just not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is definitely information inside this book incredible fresh, you will get information which is getting deeper you actually read a lot of information you will get. This particular Introductory Chemistry, 7th Edition without we comprehend teach the one who examining it become critical in imagining and analyzing. Don't become worry Introductory Chemistry, 7th Edition can bring once you are and not make your case space or bookshelves' turn out to be full because you can have it within your lovely laptop even phone. This Introductory Chemistry, 7th Edition having excellent arrangement in word as well as layout, so you will not really feel uninterested in reading.

Luann Bowen:

Information is provisions for people to get better life, information these days can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider if those information which is within the former life are difficult to be find than now is taking seriously which one is appropriate to believe or which one the resource are convinced. If you get the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen inside you if you take Introductory Chemistry, 7th Edition as your daily resource information.

Allen Barnett:

People live in this new moment of lifestyle always try to and must have the free time or they will get wide range of stress from both way of life and work. So , whenever we ask do people have time, we will say absolutely yes. People is human not really a huge robot. Then we question again, what kind of activity do you possess when the spare time coming to an individual of course your answer will certainly unlimited right. Then do you try this one, reading publications. It can be your alternative with spending your spare time, often the book you have read is Introductory Chemistry, 7th Edition.
