### **Gardening with Less Water: Low-Tech, Low-Cost Techniques; Use up to 90% Less Water in Your Garden** By David A. Bainbridge

Are you facing drought or water shortages? *Gardening with Less Water* offers simple, inexpensive, low-tech techniques for watering your garden much more efficiently — using up to 90 percent less water for the same results. With illustrated step-by-step instructions, David Bainbridge shows you how to install buried clay pots and pipes, wicking systems, and other porous containers that deliver water directly to a plant's roots with little to no evaporation. These systems are available at hardware stores and garden centers; are easy to set up and use; and work for garden beds, container gardens, and trees.

### Editorial Review

#### Review

“David Bainbridge brings together his deep understanding of ancient techniques developed in desert conditions with modern data on how adaptations of those techniques will work in backyard gardens and small farms.”

—Cheryl Long, Editor-in-Chief, *Mother Earth News*

“If you need to water your plants, you also need to conserve water. This book features methods to achieve drastic water savings that go beyond basic irrigation efficiency. The sustainable techniques outlined here produce better plants, higher yields, fewer weeds, and healthier soil. They are time tested, easy, practical, and cost effective. You can put the information in this book to use right away.”

—Mike Evans, Founder, Tree of Life Nursery

“As a potter, gardener, and long-time maker of irrigation ollas, I was particularly impressed with his experiments using common red clay flowerpots for subsurface irrigation.”

—Diana Kersey, Kersey Ceramics

Drought resilience lies within these pages in the form of effective, low-tech irrigation strategies, which too few people have heard of — until now. Read this book, and put its teachings to work to save water and time in innovative ways.

—Brad Lancaster, author of *Rainwater Harvesting for Drylands and Beyond*

I found David’s book Gardening With Less Water to be a fabulous read! It’s full of insightful ways to help everyone from homeowners to farmers increase their water efficiency while sustaining healthy plants and productive crops. The simple yet proven methods he shares are easy to implement. This informative and well-written book should be read by anyone looking for ways to make a difference.

—Lisa Marie Evans

Gardening with Less Water is timely and well researched. Not only does David describe methods that are easy to implement for any gardener — he also gives practical advice, along with examples, on bringing change from your own garden to your neighborhood and beyond. I suggest this book to anyone who desires to do their part in dealing with our emerging water crisis.

—Lori Haynes, Dripping Springs OLLAS

#### From the Back Cover

### Conserve & Grow

Water shortages have become an everyday concern, but drought or a dry climate doesn’t mean your garden has to suffer. With inexpensive materials such as terra-cotta pots, recycled bottles, and nylon rope, you can create simple, effective, and efficient watering systems that will dramatically reduce your water use and benefit your garden, no matter where you live.

Super-efficient water systems:

- Deliver water directly to roots.
- Reduce weed growth.
- Cut back on watering time.
- Work for any size garden and for container plants.

About the Author

**David A. Bainbridge** is professor emeritus of ecology and agroecology at Alliant International University in San Diego, California. He is the author or co-author of many books, including *The Straw Bale House* (Chelsea Green, 1994), *A Guide for Desert and Dryland Restoration* (Island Press, 2007), and *Passive Solar Architecture* (Chelsea Green, 2011). He lives in San Diego and has been researching dryland restoration and irrigation since 1981.

## Users Review

**From reader reviews:**

**Steven Stockton:**

Reading a book can be one of a lot of activity that everyone in the world loves. Do you like reading book therefore. There are a lot of reasons why people enjoy it. First reading a e-book will give you a lot of new information. When you read a e-book you will get new information simply because book is one of numerous ways to share the information or their idea. Second, examining a book will make a person more imaginative. When you reading a book especially fictional book the author will bring that you imagine the story how the figures do it anything. Third, it is possible to share your knowledge to others. When you read this Gardening with Less Water: Low-Tech, Low-Cost Techniques; Use up to 90% Less Water in Your Garden, you could tells your family, friends and also soon about yours reserve. Your knowledge can inspire others, make them reading a reserve.

**Herbert White:**

Spent a free time for you to be fun activity to try and do! A lot of people spent their spare time with their family, or their very own friends. Usually they doing activity like watching television, going to beach, or picnic from the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Could possibly be reading a book could be option to fill your cost-free time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to try look for book, may be the guide untitled Gardening with Less Water: Low-Tech, Low-Cost Techniques; Use up to 90% Less Water in Your Garden can be very good book to read. May be it could be best activity to you.

**Albert Jones:**

Playing with family in the park, coming to see the ocean world or hanging out with good friends is thing that usually you have done when you have spare time, in that case why you don't try issue that really opposite from that. Just one activity that make you not sense tired but still relaxing, trilling like on roller coaster you

already been ride on and with addition info. Even you love Gardening with Less Water: Low-Tech, Low-Cost Techniques; Use up to 90% Less Water in Your Garden, it is possible to enjoy both. It is fine combination right, you still need to miss it? What kind of hangout type is it? Oh occur its mind hangout folks. What? Still don't obtain it, oh come on its called reading friends.

**Sharon Scott:**

Many people spending their time frame by playing outside together with friends, fun activity having family or just watching TV the whole day. You can have new activity to pay your whole day by looking at a book. Ugh, do you think reading a book can definitely hard because you have to take the book everywhere? It ok you can have the e-book, bringing everywhere you want in your Touch screen phone. Like Gardening with Less Water: Low-Tech, Low-Cost Techniques; Use up to 90% Less Water in Your Garden which is having the e-book version. So , why not try out this book? Let's notice.
