T2: Rising Storm (T2, 2) By S.M. Stirling

The Infiltrator is dead. The Terminators destroyed. But the war is far from over. Severely injured and recuperating in a military hospital, Sarah Connor discovers some shocking information. Meanwhile, John Connor, aided by the former counter-terrorist Dieter von Rossbach, begins a desperate campaign to prepare humanity for the dark times ahead. For the future does not look good. The fledging Skynet - the sentient computer network that will destroy the world; the network the Connors thought they had finally stopped for good-is up and running, with the full support of Cyberdyne Corporation. And, unbeknownst to the Connors, another Infiltrator Terminator unit has begun its own clandestine operations.

Editorial Review

From Publishers Weekly

Military SF author Stirling provides fast-moving combat between well-matched, smart opponents in this excellent sequel to last year's T2: Infiltrator, in which Sarah Connor, her teenaged son, John, and their new ally, Dieter von Rossbach, defeated the female cyborg sent back in time by evil computer Skynet, but didn't know that she'd left her two cloned sisters ready to take up the job of protecting Skynet. Now John and Dieter are on the run in South America, Sarah is recovering from serious wounds and the cute young Terminators are learning to exploit their superhuman abilities. Complications multiply deliciously as the author cuts rapidly from one vivid scene to another. The movie-like technique lets readers watch intelligent people following incomplete information into terrible mistakes. Accepting human limitations but stretching his own potential, John becomes more the tough, confident leader of the Terminator movies. Around John, Stirling efficiently gathers a large cast which changes frequently, since most characters don't survive long in the presence of a Terminator. Sly humor spices the nonstop action until it climaxes at a secret Antarctic scientific-military base, where John and Dieter confront one Terminator. Meanwhile, the other cyborg killer is on the trail of still-recuperating Sarah at Dieter's Paraguay ranch. Anyone who liked the Terminator movies will love this book. In fact, it's exciting enough to win new fans for the franchise.

The highly competent Stirling is now extrapolating moviemaker James Cameron's Terminator concepts into a full-blown alternate future. In the second installment of the project, Sarah Connor is considered mad, bad, and dangerous to know by those who don't know the menace of Skynet, the computer-mind that rules the future and dispatches Terminators and Infiltrators to protect itself from Sarah's son, John Connor, who is growing older and more capable as well as falling in love. The Connors and Dieter von Rossbach, who, curiously enough, resembles a certain movie star from Austria, are quite capable of holding the fort until the advent of two Infiltrators, both female in appearance. The little band of resistance fighters now has to recruit new allies and then carry the fight to the enemy. They do, though at high cost, on the way offering a feast of technical ingenuity, wry wit, offbeat characterization, and furious, convincing action. A felicitous wedding of a visually oriented writer to soundly conceived sf-movie concepts. *Roland Green*
