It was the most influential marriage of the nineteenth century—and one of history's most enduring love stories. Traditional biographies tell us that Queen Victoria inherited the throne as a naïve teenager, when the British Empire was at the height of its power, and seemed doomed to find failure as a monarch and misery as a woman until she married her German cousin Albert and accepted him as her lord and master. Now renowned chronicler Gillian Gill turns this familiar story on its head, revealing a strong, feisty queen and a brilliant, fragile prince working together to build a family based on support, trust, and fidelity, qualities neither had seen much of as children. The love affair that emerges is far more captivating, complex, and relevant than that depicted in any previous account.

The epic relationship began poorly. The cousins first met as teenagers for a few brief, awkward, chaperoned weeks in 1836. At seventeen, charming rather than beautiful, Victoria already “showed signs of wanting her own way.” Albert, the boy who had been groomed for her since birth, was chubby, self-absorbed, and showed no interest in girls, let alone this princess. So when they met again in 1839 as queen and presumed prince-consort-to-be, neither had particularly high hopes. But the queen was delighted to discover a grown man, refined, accomplished, and whiskered. “Albert is beautiful!” Victoria wrote, and she proposed just three days later.

As Gill reveals, Victoria and Albert entered their marriage longing for intimate companionship, yet each was determined to be the ruler. This dynamic would continue through the years—each spouse, headstrong and impassioned, eager to lead the marriage on his or her own terms. For two decades, Victoria and Albert engaged in a very public contest for dominance. Against all odds, the marriage succeeded, but it was always a work in progress. And in the end, it was Albert's early death that set the Queen free to create the myth of her marriage as a peaceful idyll and her husband as Galahad, pure and perfect.

As Gill shows, the marriage of Victoria and Albert was great not because it was perfect but because it was passionate and complicated. Wonderfully nuanced, surprising, often acerbic—and informed by revealing excerpts from the pair’s journals and letters—**We Two** is a revolutionary portrait of a queen and her prince, a fascinating modern perspective on a couple who have become a legend.

Book Description

It was the most influential marriage of the nineteenth century--and one of history's most enduring love stories. Traditional biographies tell us that Queen Victoria inherited the throne as a naïve teenager, when the British Empire was at the height of its power, and seemed doomed to find failure as a monarch and misery as a woman until she married her German cousin Albert and accepted him as her lord and master. Now renowned chronicler Gillian Gill turns this familiar story on its head, revealing a strong, feisty queen and a brilliant, fragile prince working together to build a family based on support, trust, and fidelity, qualities neither had seen much of as children. The love affair that emerges is far more captivating, complex, and relevant than that depicted in any previous account.

The epic relationship began poorly. The cousins first met as teenagers for a few brief, awkward, chaperoned weeks in 1836. At seventeen, charming rather than beautiful, Victoria already "showed signs of wanting her own way." Albert, the boy who had been groomed for her since birth, was chubby, self-absorbed, and showed no interest in girls, let alone this princess. So when they met again in 1839 as queen and presumed prince-consort-to-be, neither had particularly high hopes. But the queen was delighted to discover a grown man, refined, accomplished, and whiskered. "Albert is beautiful!" Victoria wrote, and she proposed just three days later.

As Gill reveals, Victoria and Albert entered their marriage longing for intimate companionship, yet each was determined to be the ruler. This dynamic would continue through the years--each spouse, headstrong and impassioned, eager to lead the marriage on his or her own terms. For two decades, Victoria and Albert engaged in a very public contest for dominance. Against all odds, the marriage succeeded, but it was always a work in progress. And in the end, it was Albert's early death that set the Queen free to create the myth of her marriage as a peaceful idyll and her husband as Galahad, pure and perfect.

As Gill shows, the marriage of Victoria and Albert was great not because it was perfect but because it was passionate and complicated. Wonderfully nuanced, surprising, often acerbic--and informed by revealing excerpts from the pair's journals and letters--*We Two* is a revolutionary portrait of a queen and her prince, a fascinating modern perspective on a couple who have become a legend.

Amazon Exclusive: An Essay by Gillian Gill

When I was growing up in South Wales, the part of Great Britain best known for coal mines, people like me did not write about royalty. We left that to “nobs” like Countess Longford (alias Elizabeth Longford) who were actually invited to coronations or to people like Cecil Woodham-Smith whose double-barrelled surname and weird given name proclaimed her membership of the elite public (i.e. private) school set. My family was the kind that lined the route on a rare royal visit to our provincial city, waving tiny union jacks.

Until my teens, my sister Rose and I were reared jointly by our mother and her mother. Mummy and Nana lived together all their lives, quarreled every day, but shared a passion for the British royal family. In our house, the pantheon of royals was worshipped with more fervor and regularity than we mustered at the plain little branch of the Church of Wales just around the corner. The royals were glamour and romance, items severely rationed in post-war Britain.

1953, the year of Queen Elizabeth II's coronation, was a banner year for our family. My mother bought a television set and invited her humbler relatives over to squint at the magnificent event on our twelve inch, black and white set. There followed a street party and my grandmother, who had once apprenticed as a milliner, contrived marvelous costumes for Rose and me. I was actually queen for the day with a long white dress, purple robe, and crown, orb, and scepter.

But once my father retired from the Merchant Navy and took his place in the family, his carefully informed left-wing politics took hold of me and my grandmother's reverence for the royal family began to seem silly and ignorant. When I was about seventeen, I made some flip remark about the abdication of King Edward VIII which so infuriated Nana that she slapped my face. At the time I was shocked and wholly at a loss. Now I think I understand. A handsome and engaging young king had once come to South Wales and spoken movingly of the plight of the miners. Women of my grandmother's generation had never forgotten it. Like the rest of the general public in Britain, she had been carefully shielded by the press from any knowledge of Edward VIII's prenuptial dalliances and fascist opinions.

By 1965 I was a graduate of Cambridge University, the first of my family to attend university and a budding academic. When it was announced that the Queen Mother would come to New Hall, my Cambridge college, to open the new buildings, I was blasé to the point of disdain. But when I found myself curtsying and carefully shaking the tips of Her Majesty's gloved fingers, I was swept away by the mystique of royalty. How delightful the Queen was in person and how proud my grandmother would be when she saw the photo of me with the Queen Mum.

All of which is to explain why my book about Queen Victoria is prefaced by the old English saying: “A cat may look at a king.” --*Gillian Gill*

From Publishers Weekly

According to Gill (*Nightingales*), the age that has been labeled Victorian was, in its origins, Albertian. Prince Albert was the chaste scion of a family of ambitious, debt-ridden, sexually corrupt misogynists, and his holy war of moral strictness made him appear straitlaced, judgmental and sanctimonious. In marrying Victoria, says Gill, Albert planned to take the reins of British power, though parliamentary rules didn't allow him to be king. Gill paints a portrait of this marriage as a work in progress, in which the balance of power shifted continually between queen and consort, but Victoria's repeated pregnancies caused a dramatic shift in Albert's favor: he joined her meetings with ministers, and met or corresponded with the most powerful men in England and abroad. His great accomplishment was keeping Great Britain out of the American Civil War; he also served a stint as chancellor of Cambridge, bringing the university into the modern world. Despite their constant battle for dominance, Victoria was always madly in love while Albert was pleased to be adored. A lively, perceptive, impressively researched biography of what Gill terms a forerunner of today's power couple. 16 pages of color illus.; b&w illus. throughout. (May 19)

Review

"Gillian Gill has written a superbly accessible account of the marriage of Queen Victoria and Albert of Saxe-Coburg. She makes us understand that it was a union constantly pulled between two contradictory imperatives: the need for the Queen to be supreme head of state and Albert her subject, and the requirement that the nineteenth-century wife should be her husband's subordinate in every way. Gill grippingly recounts the tensions and negotiations between Victoria and Albert, both in politics and in intimate and domestic life, as they tried to reconcile this contradiction. She is particularly good on the couple's later life and their relationships with their many children. Her book is the story not just of a marriage and a family but also of the way in which Victoria appeared to grant Albert precedence but ultimately came to control the relationship. After Albert's early death Victoria set about creating an enduring legend of her marriage and inevitably emerged as both heroine and victor. Gill skillfully shows exactly how she did it."—Stella Tillyard, author of *A Royal Affair* and *The Aristocrats*

"Every marriage is a balancing act. In this absorbing book, Gillian Gill shows how the royal couple counterpoised their partnership—and their passion—for twenty-one years while bearing the weight of the world on their shoulders."—Daniel Mark Epstein, author of **The Lincolns: Portrait of a Marriage**

"Gillian Gill's double biography, **We Two**, is intimate and delicious. Gill has a gift for finding the telling details which bring the royal couple to life, and she has created a fascinating study of a woman negotiating her supreme power in a male-dominated society and a traditional marriage. The push and pull between Albert, who is a complicated mixture of rigidity and softness, and Victoria, reluctant mother of nine and natural sovereign, makes a great story."—Susan Q...

From reader reviews:

Gene Kirkland:

Why don't make it to be your habit? Right now, try to prepare your time to do the important act, like looking for your favorite e-book and reading a publication. Beside you can solve your trouble; you can add your knowledge by the reserve entitled *We Two: Victoria and Albert: Rulers, Partners, Rivals*. Try to stumble through book *We Two: Victoria and Albert: Rulers, Partners, Rivals* as your good friend. It means that it can be your friend when you really feel alone and beside that of course make you smarter than ever before. Yeah, it is very fortunate for you. The book makes you a lot more confidence because you can know every thing by the book. So, we should make new experience along with knowledge with this book.

Pedro Turk:

Book is actually written, printed, or highlighted for everything. You can learn everything you want by a publication. Book has a different type. As we know that book is important issue to bring us around the world. Next to that you can your reading expertise was fluently. A e-book *We Two: Victoria and Albert: Rulers, Partners, Rivals* will make you to end up being smarter. You can feel a lot more confidence if you can know about every thing. But some of you think that open or reading any book make you bored. It isn't make you fun. Why they might be thought like that? Have you looking for best book or suitable book with you?

Nancy Collins:

The feeling that you get from *We Two: Victoria and Albert: Rulers, Partners, Rivals* could be the more deep you rooting the information that hide inside words the more you get thinking about reading it. It does not mean that this book is hard to recognise but *We Two: Victoria and Albert: Rulers, Partners, Rivals* giving you buzz feeling of reading. The copy writer conveys their point in specific way that can be understood by simply anyone who read it because the author of this guide is well-known enough. This particular book also makes your personal vocabulary increase well. Making it easy to understand then can go with you, both in printed or e-book style are available. We highly recommend you for having this particular *We Two: Victoria and Albert: Rulers, Partners, Rivals* instantly.

Mary Linkous:

That reserve can make you to feel relax. This kind of book *We Two: Victoria and Albert: Rulers, Partners, Rivals* was multi-colored and of course has pictures around. As we know that book *We Two: Victoria and Albert: Rulers, Partners, Rivals* has many kinds or variety. Start from kids until adolescents. For example

Naruto or Private investigator Conan you can read and feel that you are the character on there. Therefore not at all of book are generally make you bored, any it offers up you feel happy, fun and unwind. Try to choose the best book for you and try to like reading that.
