Editorial Review

About the Author

Marvin Bittinger For over thirty-eight years, Professor Marvin L. Bittinger has been teaching math at the university level. Since 1968, he has been employed at Indiana University - Purdue University Indianapolis, and is now professor emeritus of mathematics education. Professor Bittinger has authored over 190 publications on topics ranging from basic mathematics to algebra and trigonometry to applied calculus. He received his BA in mathematics from Manchester College and his PhD in mathematics education from Purdue University. Special honors include Distinguished Visiting Professor at the United States Air Force Academy and his election to the Manchester College Board of Trustees from 1992 to 1999. His hobbies include hiking in Utah, baseball, golf, and bowling. Professor Bittinger has also had the privilege of speaking at many mathematics conventions, most recently giving a lecture entitled "Baseball and Mathematics." In addition, he also has an interest in philosophy and theology, in particular, apologetics. Professor Bittinger currently lives in Carmel, Indiana with his wife Elaine. He has two grown and married sons, Lowell and Chris, and four granddaughters. David Ellenbogen David Ellenbogen has taught math at the college level for twenty-two years, spending most of that time in the Massachusetts and Vermont community college systems, where he has served on both curriculum and developmental math committees. He has also taught at St. Michael's College and The University of Vermont. Professor Ellenbogen has been active in the Mathematical Association of Two Year Colleges since 1985, having served on its Developmental Mathematics Committee and as a delegate, and has been a member of the Mathematical Association of America since 1979. He has authored dozens of publications on topics ranging from prealgebra to calculus and has delivered lectures at numerous conferences on the use of language in mathematics. Professor Ellenbogen received his BA in mathematics from Bates College and his MA in community college mathematics education from The University of Massachusetts at Amherst. A co-founder of the Colchester Vermont Recycling Program, Professor Ellenbogen has a deep love for the environment and the outdoors, especially in his home state of Vermont. In his spare time, he enjoys playing keyboard in the band Soularium, volunteering as a community mentor, hiking, biking, and skiing. He has two sons, Monroe and Zack.

Users Review

From reader reviews:

Richard Reid:

With other case, little men and women like to read book Introductory Algebra (10th Edition). You can choose the best book if you love reading a book. Providing we know about how is important a book Introductory Algebra (10th Edition). You can add expertise and of course you can around the world with a book. Absolutely right, since from book you can recognize everything! From your country until finally foreign or abroad you will end up known. About simple point until wonderful thing you can know that. In this era, we can easily open a book or searching by internet product. It is called e-book. You need to use it when you feel bored stiff to go to the library. Let's read.

Mark Sawyers:

Book is to be different for each grade. Book for children until adult are different content. As we know that book is very important normally. The book Introductory Algebra (10th Edition) ended up being making you

to know about other understanding and of course you can take more information. It is rather advantages for you. The publication Introductory Algebra (10th Edition) is not only giving you far more new information but also to get your friend when you experience bored. You can spend your current spend time to read your book. Try to make relationship with the book Introductory Algebra (10th Edition). You never feel lose out for everything when you read some books.

Larry Swartz:

Now a day people that Living in the era everywhere everything reachable by talk with the internet and the resources included can be true or not require people to be aware of each info they get. How people have to be smart in getting any information nowadays? Of course the answer is reading a book. Studying a book can help folks out of this uncertainty Information specially this Introductory Algebra (10th Edition) book because this book offers you rich data and knowledge. Of course the knowledge in this book hundred percent guarantees there is no doubt in it you probably know this.

Mary Ponce:

Your reading 6th sense will not betray anyone, why because this Introductory Algebra (10th Edition) publication written by well-known writer who really knows well how to make book that can be understand by anyone who all read the book. Written within good manner for you, still dripping wet every ideas and composing skill only for eliminate your hunger then you still skepticism Introductory Algebra (10th Edition) as good book not only by the cover but also by the content. This is one reserve that can break don't evaluate book by its deal with, so do you still needing one more sixth sense to pick this specific!?! Oh come on your reading through sixth sense already told you so why you have to listening to one more sixth sense.
