Editorial Review

From the Back Cover

YOUR QUICK KEY TO TIME- AND \$-SAVING PIPE AND FITTING DATA

Throw out that pile of catalogs, journals, manuals, and battered textbooks. Get ready for a clean desk and tons less aggravation because the answers you used to dig for are right here. Whether it's the thermal conductivity of insulation materials or a conversion factor for viscosity, sizes and types of metallic or nonmetallic pipe or fitting dimensions, manufacturers' names or that elusive bit of terminology, the *Piping Databook* will spare you hours of frustrating fact-hunting. It's packed with material that mechanical, chemical, process, and civil engineers, architects, facility managers, installers and operators, HVAC personnel, and other professionals use in designing, planning, specifying, ordering, and problem-solving every day. Look inside to see how much easier it can be to:

- ***Specify pipe and components** with cost-cutting comparisons of design criteria
- ***Design systems** for new uses with easy-to-find equations, tabular product data, photos, U.S. and international codes and standards
- ***Select and specify** domestic or international materials for piping elements to save time and cost
- ***Do quick conversions** with metric and other fast-lookup tables and charts
- ***Use tables** presented with both customary and metric units
- ***Find all major manufacturers**, suppliers, fabricators, installers, and testing companies at a glance for the part or system you need
- ***See illustrations of pipes, fittings, parts**, and piping specialty items before you order
- ***Select and specify insulation material** and the insulation thickness without making time-consuming calculations
- ***Find types of pipe supports and hangers**; select support spans for metallic and nonmetallic piping systems
- ***Discover innovations** in products, applications, and procedures
- ***Find abbreviations, acronyms**, terminology, professional organizations, computer programs, and so much more

The name Nayyar practically equals piping. And this new resource from the Editor-in-Chief and an author of the field's best-selling *Piping Handbook* proves it. Mohinder Nayyar's *Piping Databook* can save you hundreds of work hours and your company thousands of dollars. It's the one guide that puts all the practical answers close at hand.

About the Author

Mohinder L. Nayyar, P.E., ASME Fellow, is Senior Engineering Specialist for piping and valves in the engineering department of the Bechtel Power Corporation in Frederick, Maryland, and the Editor-in-Chief and an author of the sixth and seventh editions of the field-leading *Piping Handbook*. As a Bechtel consultant, he has assisted many leading companies, and has supervised and supported both nuclear- and fossil-fueled projects around the world. He is Chairman of the Materials Technical Committee of the ASME B31, Pressure Piping Code, and of Materials Group of ASME B31.1, Power Piping Code; a member of ASME B16 Main Committee; and several other standards committees. He lives in Brookeville, Maryland.

Users Review

From reader reviews:

Verla Foster:

The reserve untitled Piping Databook is the e-book that recommended to you you just read. You can see the quality of the reserve content that will be shown to anyone. The language that creator use to explained their ideas are easily to understand. The writer was did a lot of investigation when write the book, to ensure the information that they share for your requirements is absolutely accurate. You also could get the e-book of Piping Databook from the publisher to make you a lot more enjoy free time.

Douglas Wyss:

You may spend your free time to study this book this publication. This Piping Databook is simple to develop you can read it in the area, in the beach, train in addition to soon. If you did not have got much space to bring typically the printed book, you can buy often the e-book. It is make you quicker to read it. You can save the particular book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Jillian Harrington:

As we know that book is vital thing to add our information for everything. By a e-book we can know everything we want. A book is a group of written, printed, illustrated or blank sheet. Every year seemed to be exactly added. This reserve Piping Databook was filled in relation to science. Spend your spare time to add your knowledge about your science competence. Some people has diverse feel when they reading any book. If you know how big benefit from a book, you can truly feel enjoy to read a reserve. In the modern era like now, many ways to get book that you wanted.

Katrice Fredericksen:

That guide can make you to feel relax. That book Piping Databook was bright colored and of course has pictures on there. As we know that book Piping Databook has many kinds or type. Start from kids until teenagers. For example Naruto or Private eye Conan you can read and believe you are the character on there. Therefore not at all of book are make you bored, any it offers up you feel happy, fun and chill out. Try to choose the best book for yourself and try to like reading that will.
